

## VISTA H Portrait Keypad

VISTAHPKP

SKU: 189094    UPC: 194160015247

The VISTAHPKP hardwired portrait keypad has an illuminated 2-line alpha custom display allowing for zone descriptions to be customized giving end users the extra information needed during an emergency. The oversized display, illuminated function keys and audible beeps make it easy to read and understand from anywhere in the room. The dedicated emergency keys make it easy to arm or disarm the system as well as quickly call for help in emergency situations. The slim portrait design gives the flexibility for installation in tight places and the white contoured style blends in with any décor. The VISTAHPKP matches the PROSIXLCDKP wireless portrait keypad design, features and functionality which is perfect when installing both in the same installation. There are display language options for English (VISTAHPKP) and French (VISTAHPKPR).
