

DENON

13.4 -Channel 150W 8K AV Receiver with HEOS

AVR-A10H

SKU: 189183 UPC: 747192143190

Power your dream sound system with the Denon AVR-A10H. Featuring a robust 13.4-channel amplifier, it drives up to 13 speakers and 4 subwoofers, delivering 150 watts per channel. Enjoy immersive formats like Dolby Atmos, DTS:X, IMAX Enhanced, and AURO-3D; stunning 8K visuals; and audiophile-quality sound. Crafted in Japan for unparalleled excellence.

With audiophile-grade sound, support for immersive platforms, and stunning 8K visuals, every song and scene comes alive—with you at the center of the action.

Features

- **13.4 Channel Amplifier** - The AVR-A10H's 13-channel monolithic amplifier delivers 150 watts per channel. As is typical in high-end amplifier designs, each channel is built on its own PCB to minimize crosstalk and distortion.
- **150 watts per channel** - Each channel is capable of 150W of power more than enough for even the most demanding speakers.
- **Immersive 3D Sound** - 13.4-channel processing powers systems up to 7.4.6 or 9.4.4 speaker configurations with support for Dolby Atmos, DTS:X Pro, IMAX Enhanced, and AURO-3D.
- **8K Ultra HD**
- **HEOS Built-in**
- **Dolby Atmos, DTS:X Pro, IMAX Enhanced**
- **Dirac Live Ready** - Dirac Live® Room Correction applies state-of-the-art, patented algorithms to analyze and digitally reduce room impact and enhance speaker performance. Upgrade subwoofer performance with Dirac Live® Bass Control.
