

## DMC 20A Power Conditioner w/ Lights, Volt/Ammeter

PL-PRO DMC

SKU: 23450    UPC: 654061028000

The Classic Series features Furman's revolutionary Series Multi-Stage Protection (SMP), Linear Filtering Technology (LiFT), and Extreme Voltage Shutdown (EVS). Together, these technologies comprise what is, without question, one of the world's most advanced and comprehensive transient voltage surge suppressors.

### Features

- Furman's exclusive SMP technology provides the highest level of surge & spike protection available.
- LiFT offers AC power filtering to ensure clean power for unequaled audio & video clarity.
- Advanced EVS circuitry detects dangerous voltage irregularities and safely powers down itself and connected equipment in unsafe conditions.
- Dual smooth track retractable LED lights illuminate equipment in your rack.
- LED status indicators warn you when voltage is outside of nominal range or when protection has been compromised.
- Front panel convenience charger allows you to charge most media devices or power a USB lamp.
- Large digital voltmeter / ammeter, with discrete dimmer button, displays line voltage and true RMS current draw.
- Isolated outlet banks minimize inter-component interference and noise contamination.
- Three widely spaced outlets accommodate bulky AC power transformers.
- 20 Amp rating featuring a high inrush magnetic circuit breaker for added protection.
- Nine total outlets (8 rear panel outlets and one front panel convenience outlet).
- Rear panel BNC connector powers any standard gooseneck lamp for rear rack illumination.

Line Voltage	120
Number of Outlets	9
Number of Isolated Banks	2
Outlet Descriptions	9 outlets linearly filtered and surge protected
AC Power Cord	10 ft. captive 3/12 AWG, with NEMA 20 plug
Front Panel Meter	LED voltmeter/ammeter displays incoming voltage and true RMS current draw
Voltage Regulation	No
AC Protection Technology	Extreme Voltage Shutdown
Front Media Light(s)	2 multi-LED, dimmable lamps
Maximum surge current	6,500 Amps
