VENUE SERIES

Venue Series 8" HLCD Outdoor Speaker - Black

VS-8 PRO-B

SKU: 171103 UPC: 814820029482

The Wet Sounds VS-8 PRO speaker can add some nice low end to your outdoor sound system. It features a horn loaded compression driver, a composite 8" mid-bass woofer, and a pair of opposing aluminum passive radiators to reinforce the bass frequencies.

This weatherproof speaker is rated for 200 watts of power and features a built-in 70-volt tap for use in a commercial distributed audio system. It is perfectly matched to the weather-resistant Wet Sounds VS-1200-AMP 4-channel amplifier, which is designed to run multiple pairs of VS Series speakers and/or a subwoofer. The included multi-angle bracket gives you flexible mounting options.

Features

- Weather-resistant speaker with horn loaded compression driver and reinforced 8" composite mid-bass driver
 - Opposing dual aluminum passive radiators deliver extended bass response
- Power handling: 200 watts RMS (400 peak)
- Nominal impedance: 4 ohms
