

Pro 2 Push Button Keypad with Bluetooth - Black Suede

YRD614-BLE-BSP

SKU: 186995

Fitting into any lifestyle, this lock offers increased convenience and security so you can have one less worry during your day. With multiple ways to unlock, the ability to share and track entry codes, and Auto-Lock with DoorSense, the Yale Pro 2 gives you peace of mind, while making it easier to protect your home and family. Advanced security features like two factor authentication and lost phone features, all backed by top tier customer support, let you rest easy knowing your home is secure. The Yale Assure Lock 2 can be upgraded by purchasing a Wi-Fi, Matter or Z-Wave Smart Module (sold separately) whenever you're ready, so unlike other smart locks, you won't have to buy a new one if your smart home needs change.

Features

- **KEY-FREE ACCESS, YOUR WAY:** Everyone that needs access can choose their own way to unlock, whether that's by entering your unique code on the keypad or optional Auto-Unlock?.
- **LET YALE AUTO-UNLOCK:** For those times when your hands are full, Yale can get the door. with optional Auto-Unlock, you won't need to touch the lock, or your phone.
- **EXPECTING COMPANY,** Share unlimited entry codes with family, friends, and service people for simple, trackable access to your home, using the Yale Access App in Bluetooth range, so you'll never hide a key again.
- **DON'T WORRY, IT'S LOCKED:** Never wonder if you remembered to lock the door. Yale can be set to Auto-Lock once DoorSense detects that the door has closed.
- **SECURITY YOU CAN TRUST:** Two-factor authentication and matte keypads for fingerprint resistance provide extra peace of mind. So, you know only the right people have access at the right time. Comes with a 90 minute fire rating and is ANSI/BHMA Grade 2 certified.
- **WORKS WITH APPLE HOMEKIT:** Easily manage the lock along with your smart lighting, speakers, thermostats and more, all from the Apple Home app or using Siri. Access remotely when you have an Apple TV or HomePod set up as a hub. * * HomePod, HomePod mini, and Apple TV automatically set up as home hubs. Just make sure that you're signed in to into iCloud on your iOS device or Apple TV with the Apple ID that you used to set up your Apple Home accessories in the Home app.
- **UPGRADE WHEN YOU'RE READY:** When you feel ready to add your lock to your smart home, like Amazon Alexa and Hey Google, or want to use your Yale Access App when you're away from home, you can add a Yale Wi-Fi Smart Module (sold separately).
- **NEVER GET LOCKED OUT:** Your lock is battery powered so you'll still have access during a power outage. Plus, if the batteries die, you can always use a 9V to charge it.
- **DESIGNED FOR YOUR HOME:** Compact, discreet and available in finishes to match your door hardware, the Yale Assure Lock 2 is designed to elevate your front door.
