Tilt Sensor Transmitter

5822T

SKU: 62098    UPC: 886618164644

Honeywells 5822T Wireless Tilt Sensor Transmitter is designed to mount vertically on surfaces that tilt horizontally when opened - providing an easy way to secure garage doors or basement tilt windows. Any time the sensor detects tilt movement, a notification is transmitted to the control panel. The sensor can be programmed as a monitored or notification only zone. Includes cover tamper and battery supervision.

## Features

- Easy to install - use double sided tape or screws (included). Screws must be used in installations where temperatures can drop to 32 degree F (0 degree C) or below.
- Internal LED for easy programming
- Reliable 5800 Series Wireless
- Case tamper and battery supervision

Product Dimensions	1.6 x 1.2 x 3.1 inches
