VENUE SERIES

Venue Series Shallow Mount 6.5" Ceiling Speaker - White

VS-SMC-65

SKU: 171110 UPC: 810042171114

Wet Sounds VS-SMC-65 Venue Series Speakers can go where most in-ceiling speakers can't. They're under 2-1/2" deep, so they can be mounted in-ceiling locations with limited space. They are weather-resistant and can stand up to the elements in an outdoor installation. The VS-SMC-65 delivers incredible sound by combining a composite mid-bass driver with a 1" PEI dome tweeter.

These speakers are perfectly matched to the weather-resistant Wet Sounds VS-1200-AMP 4-channel amplifier, which is designed to run multiple pairs of VS Series speakers and/or a subwoofer.

Features

- Weather-resistant in-ceiling speaker for indoor/outdoor installations
- Shallow-mount design offers placement flexibility
- 6-1/2" composite mid-bass driver with 1" PEI dome tweeter
- Power handling: 50 watts RMS
- Frequency response: 55-20,000 Hz
- Sensitivity: 88 dB
- Nominal impedance: 8 ohms

RMS Watts	50W
Peak Watts	100W
Frequency Response	55Hz - 20KHz
Sensitivity	88dB @ 1W/1meter
Impedance	8 Ohms
Diameter	9.3"
Cutout	8.18"
Depth	2.12"
